📍 India, Pune +91-9284868334 ✉ [kartikgaikwad9284868334@gmail.com](mailto:kartikgaikwad9284868334@gmail.com) [in linkedin.com/in/kartik](https://www.linkedin.com/in/kartik) [github.com/kartik](https://github.com/kartik)

## Skills

---

**Languages:** Python, Java, JavaScript, C++, C, SQL, C#(basics)

**Front-End:** HTML, CSS, TailwindCSS, React.js, React Hook Form, Bootstrap

**Back-End:** Django, REST APIs, JWT, OAuth 2.0, Twilio SMS, .Net(basic)

**Databases & ORMs:** MySQL, SQLite, PostgreSQL

**DevOps / Deployment:** Vercel, AWS, Render

**Tools:** Docker, Git, GitHub, VS Code, Postman, Swagger, Google Colab, Power BI, Jupyternotebook, Jira

## Experience

---

### Intern – Full Stack Web Developer

June 2025 – Nov 2025

*Chordz Technologies Pvt. Ltd., Pune*

*React, Django, Bootstrap, REST APIs*

- Developed responsive frontend projects using HTML, CSS, and Bootstrap, including a **hospital management interface** and a **real estate platform** with strong UI/UX and mobile responsiveness.
- Built and integrated **Django REST Framework APIs** for backend services, collaborating with IT and finance teams to translate requirements into **production-ready backend solutions**.
- Gained hands-on experience with **React.js** component-based architecture to build dynamic, maintainable frontend interfaces.

## Projects

---

### Smart Health Management System | *Django, React, Twilio, REST APIs*

- Engineered a secure digital health platform enabling **QR-based patient identification** and medical record access.
- Implemented scalable **REST APIs with JWT authentication** and OTP verification via Twilio; strengthened data privacy using **SHA-256 encryption**.
- Designed **role-based access control (RBAC)** for both patient and doctor roles with secure authentication workflows.

### E-Commerce Frontend (React) | *REST APIs, React, axios, Nodejs*

- Built a **React-based e-commerce frontend** with REST API integration, enabling product browsing, cart management, and order processing using **React Router** and **Axios**.
- Managed global state using **React hooks** (`useState`, `useEffect`) and ensured efficient API communication for real-time updates.

### Shivmangal Hospital – Static Frontend | *Bootstrap, HTML, CSS*

- Developed a fully responsive hospital website with carousel components, service cards, and doctor profile sections optimized for **cross-device compatibility**.
- Implemented real-time contact options and accessibility-focused UI to improve **patient interaction and engagement**.

## Awards & Certifications

---

- **TCS iON Career Edge – Young Professional, Lernx:** Completed training in presentation skills, professional communication, and workplace readiness.
- **ReactJS – The Complete ReactJs Course for Beginners:** Covered React fundamentals, routing, hooks, and REST API integration.
- **NPtel Programming in java :** Covered all basic concepts and advance concepts like multithreading.
- **HackerRank** – Python Programming language.

## Extracurricular Activities

---

- **Smart India Hackathon:** Selected for the College-Level Round, competing in a national-level government innovation challenge under strict time constraints.
- **International Conference – Research Publication:** Presented and published a research paper at an International Conference in Engineering, demonstrating research methodology and technical project outcomes.

## Education

---

### Bachelor of Engineering (B.E.) in Computer Engineering

Nov 2022 – May 2026

*Savitribai Phule Pune University, Pune*

*CGPA: 9.10 / 10*
